Economical

Money Counter

GFC170 Economical Money Counter

Features and Specifications

A currency counter so advanced it's simple

The GRACE GFC-170 is a professional currency counter designed with users in mind. Equipped with features designed to save time and simplify operation, it is ready to take on a variety of cash-processing jobs.

Half, double and chain note detection

Infrared sensors are able to spot a wide range of bill discrepancies, including half, double, and chain notes. In all cases, the GFC-170 will stop the count, alert the user with beep, and display the error type on its screen.

Counterfeit detection

(UV+MG) Ultraviolet and magnetic sensors are able to detect a wide range of counterfeit bills. Once a counterfeit is detected, the GFC-170 stops the count and dispenses the suspect bill into its stacker for removal.

Mobile

Lightweight and compact, the GFC-170 is easily transported using the built-in handle. Its contemporary styling blends with any business environment.
